

## Purpose

To ensure that *Mildura Senior College and Mildura English Language Centre (College)* provides appropriate support to students with health care needs.

## Objective

To explain to the College's parents, carers, staff and students the processes and procedures in place to support students with health care needs at school.

## Scope

This policy applies to:

- All staff, including casual relief staff and volunteers.
- All students who have been diagnosed with a health care need that may require support, monitoring or medication at school.

## Policy

This policy should be read in conjunction with the College's *First Aid, Administration of Medication, Anaphylaxis and Asthma* policies.

## Student Health Support Planning

In order to provide appropriate support to students at the College who may need medical care or assistance, a Student Health Support Plan will be prepared by the Principal or nominee in consultation with the student, their parents, carers and treating medical practitioners.

Student Health Support plans help our school to assist students with:

- Routine health care support needs, such as supervision or provision of medication.
- Personal care support needs, such as assistance with personal hygiene, continence care, eating and drinking, transfers and positioning, and use of health-related equipment.
- Emergency care needs, such as predictable emergency first aid associated with seizure or diabetes management.

Students with complex medical care needs, for example, tracheostomy care, seizure management or tube feeding, must have a Student Health Support Plan which provides for appropriate staff to undertake specific training to meet the student's particular needs.

At enrolment or when a health care need is identified, parents/carers should provide accurate information about the student's condition or health care needs, ideally documented by the student's treating medical/health care practitioner on a Medical Advice Form (or relevant equivalent).

The College may invite parents/carers and students to attend a Student Support Group meeting, if the student has a severe medical condition, to discuss the contents of a student's Health Plan and assistance that the student may need at school or during school activities.

Where necessary, the College may also request consent from parents and carers to consult with a student's medical practitioners, to assist in preparing the plan and ensure that appropriate school staff understand the student's needs.

Student Health Support Plans will be reviewed:

- When updated information is received from the student's medical practitioner.
- When the school, student or parents and carers have concerns with the support being provided to the student if there are changes to the support being provided to the student, or on an annual basis.

### Management of Confidential Medical Information

Confidential medical information provided to the College to support a student will be:

- Recorded on the student’s file.
- Shared with all relevant staff so that they are able to properly support students diagnosed with medical conditions and respond appropriately if necessary.

### Resources

This policy should be read in conjunction with the following Department policies and guidelines:

- School Policy and Advisory Guide:
  - [Health Care Needs](#)
  - [Health Support Planning Forms](#)
  - [Complex Medical Needs](#)

The following College policies are also relevant to this Asthma Policy:

- 1.01 Anaphylaxis Policy
- 1.12 Duty of Care Policy
- 1.15 First Aid Policy
- 1.17 Medication Policy
- 1.32 Asthma Policy
- Student Health Support Plan Form
- Non-Specific Medical Advice Form
- Individual Management & Action Plans (Anaphylaxis, Asthma, Diabetes, etc.)
